

Jaycee D. Cuntapay

Front-End Web Designer Intern

cjaycee446@gmail.com | Bulacan
github.com/cjaycee446-stack | linkedin.com/in/jaycee-cuntapay-31b02b449

Objective

Computer Technology student at Bulacan State University seeking a 600-hour OJT placement starting 2027 in front-end web design or IT support. I bring hands-on hardware, software and network troubleshooting skills, web page layout experience in Figma, and software testing experience from our thesis project.

Education

Current student
Bachelor of Industrial Technology (BIT) – Computer Technology
Bulacan State University – College of Industrial Technology

2021 – 2023
Senior High School
Meycauayan National High School

2019 – 2021
Junior High School
Meycauayan National High School

Projects

HR Recruitment System (Thesis) – Tester / Quality Assurance
- Tested a BulSU HR web app (résumé parsing, AI applicant screening, Excel export) developed by a thesis groupmate, and reported issues for fixing.

Coffee Shop Website Design – Web designer
- Laid out a coffee shop website in Figma with a full-screen hero image and a Shop Now call to action.

Skills

Technical: computer hardware and software troubleshooting, network installation and maintenance
Programming & data: C++, Java, SQL
Web & design: HTML5, CSS3, responsive design, Figma, Git/GitHub
Languages: English, Filipino, Ilocano
